

March 23, 2020

Dear Families,

We hope this letter finds you all well.

Below you will find our plan for continuing learning while not physically in the building.

- For the remainder of this week we ask that your child logs into www.mobymax.com and takes the reading and math assessments. Your child's user name is their first name and their password is also their first name. Due to some students sharing a name- there are exceptions to this and we will reach out to those families individually with their child's login information. The assessment will allow the program to individualize instruction for your son/ daughter. Within mobymax your child will be able to work on other academics as well (Science, Social Studies, Writing, etc.) and we ask that for the rest of this week your child log in daily and choose different areas to work on- **beginning with the assessments.**
- Beginning Monday, March 30th your child's teachers will have activities, lessons, etc. on www.classflow.com. Your child will need to create an account and sign up as a student. Once all of the classes are set up you will receive codes for accessing the pages of your child's teachers. We ask that you have your child log in daily and go through their different classes to complete assignments and activities. If you have any questions or concerns please reach out to the individual teacher. All teacher emails are listed right on our school's website (www.hopehall.org).

If you have any additional questions or concerns, please contact me at jacelyn.droegmoeller@hopehall.org.

Thank you,
Jacelyn N. Droegmoeller
Principal
